Thank you! ...

for inquiring about "Micro Mother Goose." The enclosed brochure gives you all the details.

We're glad you inquired because it gives us a chance to get acquainted. Software Productions is a producer of high quality, value packed software. We're located in Columbus, the capitol of Ohio.

So much for us. The important thing is that you like and buy "Micro Mother Goose." Here are some actual comments received from customers in just the last few days:

"Both my five and ten year old love this program."

"Overall a fine package!"

"The kids enjoy the program. Good going!!"

"My three year old is having a great time with it and the games are very satisfying to him."

"Micro Mother Goose" is a fun software package for kids 3-9 years old that you can confidently buy. It's best for kids who get frustrated with the faster games. Advanced two year olds, the learning disabled, children just beginning with the Apple, preschools, Kindergarden - 3rd grade, just about all younger kids like "Micro Mother Goose."

To get "Micro Mother Goose," GOTO your Apple dealer. If your dealer doesn't have it yet, tell him to order it. He can get it in his store within just a couple of days by telephoning Software Productions at (614) 486-3563.

Or, if you'd rather order by mail, call the folks at Huntington Computing at 1-800-344-5106 (in California 1-800-692-4146). They've got "Micro Mother Goose" for only \$33.89, a substantial discount off the list price of \$39.95.

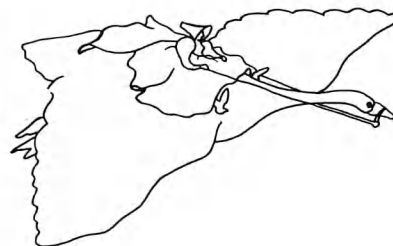

Many thanks,

Sina Pettis

P.S. Younger kids take to "Micro Mother Goose" like ducks to water for two good reasons: the games are at their level of eye-hand coordination and ... IT'S FUN! You will also get complete directions plus a color "Micro Do's and Don'ts" poster and 6 color Mother Goose stickers. Watch the grins!

Classic Family Software™ presents

Micro Mother Goose

Fun Games For Kids 3-9 Years Old

"Micro Mother Goose" includes 3 fun-filled arcade quality games for kids. In "Lamb Scramble" you try to get Mary's lambs through the hedge safely. Watch out for the wolf! In "Splat" you try to catch 100 falling Humpty Dumptys. If you miss, the eggs "splat". The eggs you catch, hatch and cheep! In "London Bridge Out" you knock out the bridge with a spinning ball.

Each game starts very easy and slow for the little ones, but everyone is challenged at higher levels. Imagine your children laughing with excitement as they too can now join in video fun. Parents report, "The first computer activity my four year old really enjoyed."

Musical Computer Comics

Enjoy good feelings with your children as you read and sing 9 popular Mother Goose rhymes together. Beautifully drawn and color-filled pictures masterfully capture the spirit of the original Mother Goose in the new computer medium. The rhymes appear in easy-to-read upper and lower case letters. Each rhyme is accompanied by its traditional musical tune.

Child Friendly—No Reading Required

Much care has been taken to make the entire program very easy to run, even by three year olds. Each rhyme or game is chosen from two Contents pages. The Return key, the Space Bar and paddles run everything. Symbols for the Return key, Space Bar and Paddle visually remind the child exactly what to do at each step.

Free Color Stickers & Poster

Your kids will love their color "Micro Mother Goose" stickers. And the large color "Micro Do's and Don'ts" poster shows the "rules of the road" for happy and safe family computing.

Comprehensive Illustrated Parent's Manual

The "Micro Mother Goose" manual gives complete step-by-step instructions on how to operate the entire program. Kids naturally accept and like computers. The key to success is to get them off to a good start. We tell you the best place to put your computer and how to care for it and your software. Let our years of experience with kids and microcomputers help you avoid frustration and make sure you get the most out of your micro investment. There's even a fascinating capsule history of nursery rhymes with insights into the significance of the greatest story teller of all time... Mother Goose!

Not Copy Protected

For your convenience, "Micro Mother Goose" is not copy protected. You can easily make and use a back-up copy "just in case". An extra disk label is enclosed in the package for use on your back-up copy.

System Requirements

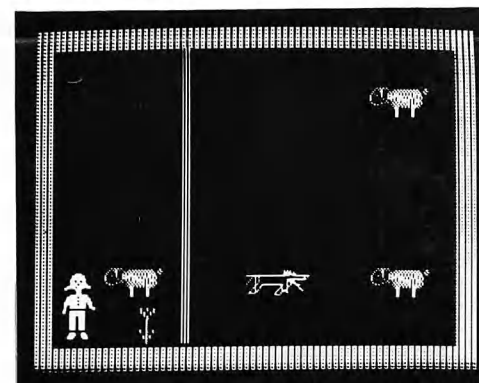

Apple II Plus or an Apple II with Applesoft, 48K of memory, one disk drive with 16 sector controller, paddles and a suitable video display. Format: DOS 3.3, 16 sector disk. Language: Applesoft and 6502 machine language.

Use the space bar to point the finger at the rhyme or game you want to see and press Return. That's all there is to it!

With your child in your lap, read or sing favorite Mother Goose rhymes. Children learn computer literacy and enjoy your attention.

Here are wholesome games that will keep them coming back for more. The first laugh of accomplishment makes it all worthwhile.
